ABOUT ME

I'm a Frontend Developer with more than one year of professional experience. I have experience in adaptive layout web-sites adhering to the concept of a component approach, experience with CSS preprocessors, Java Script, React, ability to use Flexible Box Layout, Grid, Bootstrap. I have developed an app using React, Redux, and Hooks. I have a creative mind and I'm ready for new challenges. I always try to do my work the best way.

SKILLS

- HTML/HTML5
- CSS/SCSS
- Java Script
- React
- Redux
- Git
- Bootstrap
- Figma
